Clean House?

GeigTech™ “Resolution™” Series Shades eliminate the need to hide your roller shades. The clean lines of your room’s design will not be broken. GeigTech™ Shades are designed to mount inside your window casing, and remain exposed in a perfect world where form meets function. We offer manual, motorized and battery powered shades. GeigTech™ shade motors are almost silent, yet they can power shades with lengths over 8’ using our attractive “Resolver™” coupler. GeigTech™ motorized shades can be operated with a smartphone, keypad, switch, or wireless remote control. Customization is available to ensure perfect synergy with your environment. Clean House by contacting GeigTech™ today.

BLENDING BEAUTIFULLY

R-SERIES MOTORIZED SHADING SYSTEM

This Kiawah Island home contains prime examples of the R-Series motorized shading system. The customizable product met the needs of this family perfectly. In order to enjoy the sunlight without having to worry about glare or UV rays damaging their home's interior, they chose a sheer fabric that is protective while not obstructive. The beautiful hardware allows for a fascia free design, while still hiding wires, screws and blends in with the modern beach house aesthetic seamlessly. No bulky shade boxes or long cords disrupt the lovely views. As with other products from J Geiger, this particular style can be operated both manually or electronically. Family members can adjust the motorized shades with their smart-phone, a hand-held remote, or even a wall-mounted keypad.
